AGGRAND Natural Fertilizer

AGGRAND Natural Fertilizer is a multi-purpose liquid fertilizer that is ideal for all-around use on houseplants, flowers, vegetables, fruits, lawns, shrubs, trees and field crops. AGGRAND Natural Fertilizer provides nitrogen, phosphorus and potassium (N-P-K) in a 4-3-3 ratio. These essential nutrients promote vigorous growth, prolific root development and improved disease and stress tolerance. AGGRAND Natural Fertilizer contains fish, kelp, bloodmeal, sulfate of potash and other proprietary ingredients. In addition to N-P-K, these ingredients contain secondary macronutrients, micronutrients, amino acids, plant growth hormones, biostimulants and chelating agents that not only provide a balanced plant nutritional source, but also stimulate the proliferation of beneficial life in the soil. Mix with water and apply to the soil in spring and fall, water-in transplants or apply directly on plants as a foliar spray.

AGGRAND Natural Kelp and Sulfate of Potash

AGGRAND Natural Kelp and Sulfate of Potash enhances plant productivity by providing potassium, sulfur, micronutrients, plant growth hormones and amino acids. It contains natural sulfate of potash, kelp and chelating agents. Potassium can increase drought, heat and cold tolerance, and decrease susceptibility to insect attack and infection by disease organisms. Potassium can aid in early plant growth and development and improve the quality of fruits and vegetables. Mix with water and apply to the soil during planting and transplanting, or spray onto the foliage of tree crops, fruits, vegetables and lawns. It can be mixed with AGGRAND Natural Fertilizer to supply additional potassium, sulfur, micronutrients and hormones.

AGGRAND Natural Liquid Lime

AGGRAND Natural Liquid Lime provides a readily available source of calcium and magnesium. The liquid formula penetrates easily into the root zone and through the leaves. Calcium and magnesium support prolific plant growth, provide quick green-up of foliage and maintenance of overall plant health. Mix AGGRAND Natural Liquid Lime with water and apply as a soil drench around trees, shrubs and transplants, or spray onto established lawns, gardens, ground covers and hay fields. It can be mixed with AGGRAND Natural Fertilizer to supply additional calcium and magnesium.
